Architecture Incorporated

Architect Intern

Reston, VA July 2018 - July 2019

NA Project, 12,300 SQ FT;

Assisted with project management and design development. Responsibilities included to survey site, design schematic proposal, organize and present finish proposal at client meetings, draft final construction documents, review life safety and permit documents, assist with construction management, and conduct final punch list walk-throughs for project completion.

Daily Tasks;

Drafted Test-fits, Budget Pricing Assessments , BOMA, and Blocking Plans and permit sets in Revit for commercial workplace and interior projects. Reviewed Life Safety and Permit requirements for Existing Building renovation projects in preparation for permit submission. Created finish and space planning proposals for clients. Participated in weekly CEU trainings and product presentations. Attended site visits for field verification and construction meetings in commercial workplace and educational projects.

Determined By Design

Intern

Washington, D.C. October 2017-May 2018

Assisted in design for multi-unit residential, senior living, hospitality, and retail projects. Created design proposals; including finish, lighting, plumbing, and furniture packages. Designed and installed resin installation for Uncle Bobby's Bookstore in Philadelphia, PA; project complete. Designed C.V. gym in multi-family project; currently in construction. Developed onboarding procedure and templates for new hires. Inputted schedules and finish drawings into Autocad for final permit.

James Madison University Facilities Planning and Construction

Intern

Harrisonburg, VA January 2017-May 2017

Documented construction meetings with the Design Planning team for campus educational and hospitality projects. Analyzed the design and financial procedures with the director for the campus ten year development plan. Shadowed design bid interviews for potential campus development.
